***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5, drawn to a settlement system, classified in class 705, subclass 26.
- II. Claims 6-10, drawn to virtual shop settlement system with image data capabilities, classified in class 705, subclass 27.
- III. Claims 11-14, drawn to a settlement system with a prize feature, classified in class 705, subclass 38.
- IV. Claim 15, drawn to two image data storage server, classified in class 709, subclass 215.
- V. Claims 16-20, drawn to transmission system with verification feature, classified in class 725, subclass 22.
- VI. Claim 21, drawn to exhibition means for a virtual shop, classified in class 718, subclass 1.
- VII. Claims 22-26, drawn to server with image storage means and reception means, classified in class 709, subclass 227.

The inventions are distinct, each from the other because:

Inventions I-VII are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown

to be separately usable. In the instant case, invention each has separate utility such as a credit card payment system;

Internet cyber longe;

a casino game;

a identification verifier fir security;

an authentication system;

a virtual exposition platform; and

an internet chat room with faces, respectively. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication should be directed to PRIMARY EXAMINER Joseph A. Fischetti at telephone number (703) 305-0731.
